

Hydraulic & Lubrication Filtration

## For Immediate Release

SCHROEDER INDUSTRIES INTRODUCES

### Hydrostatic Filter | HS60

December 2012 | Leetsdale, PA

Leetsdale, PA - Schroeder Industries, a recognized leader in filtration and fluid conditioning products, introduces its new, top-ported Hydrostatic Pressure Filter (HS60).

The HS60 was designed to meet the challenges of inline hydrostatic applications. Rated for cyclic applications with pressures up to 6000 psi, the HS60 utilizes a full flow, reverse-flow check valve and is available with a variety of bypass indicators rated at equivalent pressures. Easily serviced, the HS60, top-ported design is optimized for space reduction upon installation and it is capable of handling 100 gpm flow. The HS60 also features a new, 13H size, Z-Media™ element, available with high collapse (3000 psid), center tubes.

HS60

### About Schroeder Industries

Schroeder Industries, an ISO 9001: 2008 certified company, designs, manufactures and markets filtration products for the hydraulic and lubrication, filter systems, process and fuel industries. Their expertise in filtration technology, superior filter and element technology capabilities, dedication to customer service and product support are the reasons Schroeder is a worldwide leader in Advanced Fluid Conditioning Solutions™.
