

DATA SHEET

D5S | D5 Protective Shroud

Features:

- Protects D5 Indicators working in harsh environments against inadvertent impacts.
- PA66 Nylon cover is installed after the indicator is torqued to spec onto the filter.
- Cover press fits onto the hex of the aluminum indicator body to provide added strength in both the axial and lateral directions.
- Nylon material makes it light weight and corrosion resistant.

Specifications:

- **SAP#:**
7642053
- **Color:**
Black
- **Material:**
PA66 Nylon
- **Weight:**
100 grams

Markets:

- Agriculture
- Industrial
- Construction
- Mining
- Automotive
- Machine Tools
- Pulp and Paper
- Power Generation
