

# Start Off Clean

## With The Schroeder Filtration Station™

© 5-6-2013 Schroeder Industries.

The **Schroeder Filtration Station™** is ideal for both **Cleaning** and **Monitoring** your fluid. The filtration station records the cleanliness and water saturation level of the fluid for later download and record keeping. This certifies the cleanliness of the system, prolonging the life of your equipment and preventing costly repairs.

### Features

- Staged filtration for particulate and/or water removal
- Automatic measurement and display of the ISO Code using ISO 4406:1999 or SAE AS 4059
- USB download of recorded data
