

# BestFits FOR THE NEW MILLENNIUM

## Performance Replacement Elements

A superior media with the best available combination of:

- Higher Efficiency**
- Lower Pressure Drop**
- Exceptional Dirt Holding Capacity**

What this means to you:

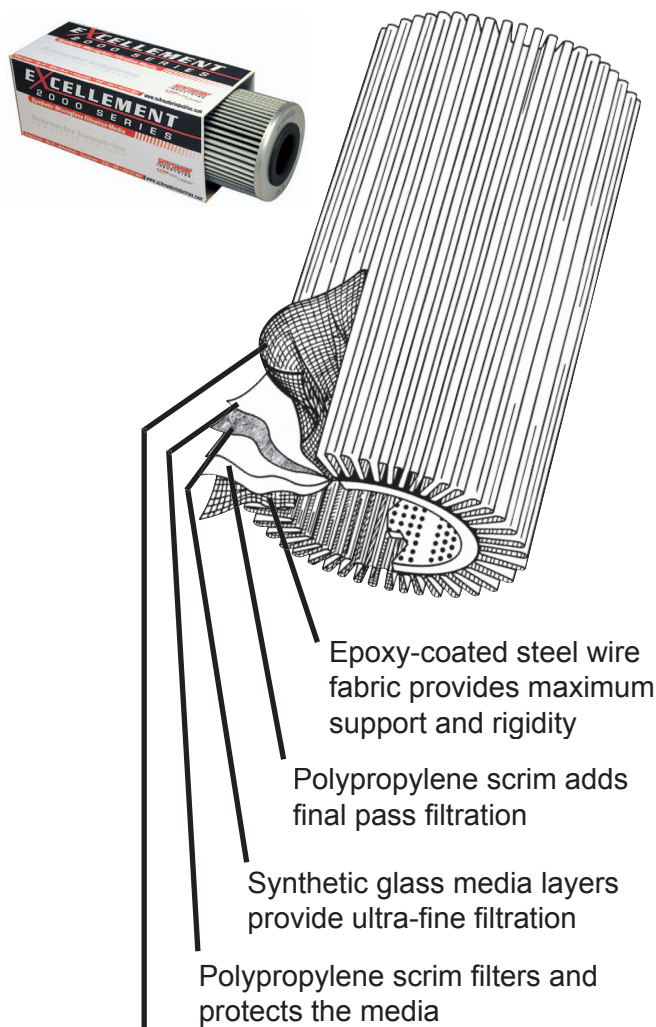

- Cleaner Oil**
- Longer Element Life**
- Less Downtime**

### Filtration Efficiencies of Schroeder Excellement (Z) Media

Schroeder P/N	BETA per ISO 4572	BETA per NIST 16889
SBF-9600-4Z1B	$\beta_1 \geq 200$	$\beta_{4.2(c)} \geq 1000$
SBF-9600-4Z3B	$\beta_3 \geq 200$	$\beta_{5.8(c)} \geq 1000$
SBF-9600-4Z5B	$\beta_5 \geq 200$	$\beta_{7.5(c)} \geq 1000$
SBF-9600-4Z10B	$\beta_{10} \geq 200$	$\beta_{12.7(c)} \geq 1000$
SBF-9600-4Z25B	$\beta_{25} \geq 200$	$\beta_{24(c)} \geq 1000$

Schroeder not only provides cross-reference information but also provides all the technical information to support the sale. (See example below). Check our web cross-reference at [www.schroederindustries.com](http://www.schroederindustries.com) (Click on "BestFit Cross Reference") for crosses to 46,000 part numbers from over 100 manufacturers.

Schroeder produces high performance replacement elements for circuits where superior oil cleanliness and low element pressure drops are a must. Our products are ideal for applications requiring precise machine control in the toughest of environments with long intervals between service.

Epoxy-coated steel wire fabric provides maximum support and rigidity

## Available Element Families

Measurements below are shown in inches. The length is rounded to the nearest whole inch. Please see the Schroeder web-site or BestFit™ catalog for part numbers and additional dimensional information.

Family	Nom. OD	Nominal Lengths	Type
BRE	3.91	9	Cartridge
KRE	3.91	9	Cartridge
SBF-PG	3.78	35	Cartridge
SBFPI73010	1.85	9	High Crush
SBF-P160229	7.44	22	Cartridge
SBF-RP83	6.00	15,36	Cartridge
